

Total permitted animal capacity from all permits for this site:

20,000 chicken layers (no pullets)

In consideration of Decision Summary LA20014A, Registration LA20014A is issued to:

Name: Hutterian Brethren Church of Granum (the "permit holder")
Address: Box 360, Granum AB T0L 1A0
Contact person: Dan Hofer

Permitted construction (based on the submitted site plan):

- Chicken layer barn – 78.5 m x 16.2 m
- Manure storage area (attached to barn) – 18.3 m x 14.9 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application together with the site plan, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition #3.

Construction conditions

Concrete (report and specifications)

1. The concrete used to construct the manure storage and collection system in the new chicken layer barn with attached manure storage area must have a minimum 28-day strength of 25 MPa. The permit holder shall provide proof, prepared by a qualified third party, to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition # 3 below or by a later date stated by the NRCB.

Construction completion deadline

2. The permit holder shall complete construction of the manure collection and storage portions of the new chicken layer barn with attached manure storage area prior to December 31, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

3. The permit holder shall not place livestock or manure in the new chicken layer barn with attached manure storage area until the NRCB has inspected the facility and stated in writing that the facility has been constructed in accordance with this approval.

Manure spreading

4. The permit holder shall spread manure on the SE 32-11-27 only in the fall and all manure has to be incorporated.

This registration becomes effective immediately. The registration conditions will remain in effect unless amended in writing by the NRCB.

October 19, 2020
