Manager, Board Reviews

Subject: **Heidelberg Materials Canada Limited**
Scott Pit Project
Proposed Application Requirements

Heidelberg Materials Canada Limited (Heidelberg) is writing to provide final comments to the NRCB on the proposed application requirements for the Scott Pit Project.

Heidelberg recognizes that the NRCB's mandate is to review the potential environmental, economic, and social impacts of the Scott Pit Project to determine whether approving the project is in the public interest of Alberta.

Clear and comprehensive application requirements allow the Board and the public to understand and evaluate the projects impacts and benefits. Heidelberg believes the application requirements as amended will meet those objectives.

Please feel free to contact us if you require any additional information or clarification.
