

Total permitted animal capacity from all permits for this site:

20,505 chicken layers (plus associated pullets)

In consideration of Decision Summary RA18090, Registration RA18090 is issued to:

Name: 5 Mile Farms Inc. (the "permit holder")
Address: Box 177 Edberg AB T0B 1J0
Contact person: Michael Froese

Permitted construction (based on the submitted site plan):

- Poultry barn #1 (67.1 m x 15.9 m)
- Manure storage pad (11 m x 11 m)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application for Registrations RA16010 and RA18090, together with the site plan, building plans, operating plan, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection referenced in conditions #2 and 5.

Construction conditions

Poultry barn #1

1. The concrete used to construct the liner of the new poultry barn #1 must meet the specifications for category D (solid manure – dry), in Technical Guideline Agdex 096-93 "Non-Engineered Concrete Liners for Manure Collection and Storage Areas." The permit holder shall provide written confirmation, from a qualified third party, confirming that the concrete used for the manure collection and storage areas meets the required specification.
2. The permit holder shall not allow livestock or manure in the new poultry barn #1, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
3. The permit holder shall complete construction of the manure collection and storage portions of the new poultry barn #1 prior to November 30, 2020. Upon request, this deadline may be extended by the NRCB in writing.

Manure storage pad

4. The concrete used to construct the liner of the new manure storage pad must meet the specifications for category C (solid manure – wet), in Technical Guideline Agdex 096-93

“Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written confirmation, from a qualified third party, confirming that the concrete used for the manure collection and storage areas meets the required specification.

5. The permit holder shall not allow manure on the new manure storage pad, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
6. The permit holder shall complete construction of the manure collection and storage portions of the new manure storage pad prior to November 30, 2020. Upon request, this deadline may be extended by the NRCB in writing.

This Registration becomes effective immediately. The Registration conditions will remain in effect unless amended in writing by the NRCB.

Registration RA16010 is hereby cancelled and is no longer in effect, unless Registration RA18090 is held invalid, in which case the previous permit will remain in effect.

March 22, 2019

Approval Officer

Registration RA18090 – Appendix

Existing permitted facilities

- Poultry barn # 3 (44.2 m x 15.2 m) with manure storage pad (15.2 x 7.3 m)
- Poultry barn # 4 (75.6 m x 15.2 m) with manure storage pad (15.2 x 15.2 m)

Construction conditions – already met (brought forward from Registration RA16010)

1. The permit holder shall provide the NRCB with a written completion report for the manure collection and storage areas of the new poultry barn. The report shall be prepared by a qualified third party, and shall verify:
 - the dimensions of the barn;
 - the type and compressive strength of the concrete used in the manure collection and storage areas of the poultry barn;
 - the concrete thickness and concrete reinforcement size and spacing in the manure collection and storage portions of the barn.
 - that the facility was built according to the submitted construction plans.
2. The concrete used to construct the manure storage and collection system in the pad behind barn #4 barn must have a minimum 28-day strength of 25 MPa. The permit holder shall provide a copy of the concrete supplier's invoice or other proof to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition # 6 below or by a later date stated by the NRCB.
3. The concrete used to construct the manure storage and collection system in the pad behind barn #2 barn must have a minimum 28-day strength of 25 MPa. The permit holder shall provide a copy of the concrete supplier's invoice or other proof to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition # 7 below or by a later date stated by the NRCB.
4. The concrete used to construct the manure storage and collection system in the pad behind barn #3 barn must have a minimum 28-day strength of 25 MPa. The permit holder shall provide a copy of the concrete supplier's invoice or other proof to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition #8 below or by a later date stated by the NRCB.
5. The permit holder shall not allow livestock or manure in the new poultry barn until the facility has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

6. The permit holder shall not allow manure on the manure storage pad behind barn #4 until the facility has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
7. The permit holder shall not allow manure on the expansion to the manure storage pad behind barn #2 until the facility has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
8. The permit holder shall not allow manure on the expansion to the manure storage pad behind barn #3 until the facility has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
9. The permit holder shall complete construction of the manure collection and storage portions of the CFO facilities prior to January 31, 2018. Upon request, this deadline may be extended by the NRCB in writing.
