

**Total permitted animal capacity from all permits for this site:**

**3,500 Beef Finishers**

---

In consideration of Decision Summary LA19002, Approval LA19002 is issued to:

Name: Henk Vander Veen Dairy Ltd. (the "permit holder")  
Address: Box 186, Carmangay, AB T0L 0N0  
Contact person: Edward Van Der Veen

**Permitted construction** (based on the submitted site plan):

- North row of pens (595 m x 46 m)
- South row of pens (412 m x 45 m)
- Catch basin (110 m x 25 m x 4 m deep)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application LA19002, together with the engineering reports, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #1, #3, and #5.

The permit holder is responsible for all costs associated with recording and reporting requirements.

### **Construction conditions**

#### North row feedlot pens

1. The permit holder shall not place livestock or manure in the north row of the feedlot pens until condition #5, #6, and #7 below have been met and the NRCB has inspected the pens and stated in writing that they have been constructed in accordance with this approval.
2. The permit holder shall complete construction of the manure collection and storage portions of the north row of feedlot pens prior to November 21, 2021. Upon request, this deadline may be extended by the NRCB in writing.

#### South row feedlot pens

3. The permit holder shall not place livestock or manure in the south row of the feedlot pens until condition #5, #6, and #7 below have been met and the NRCB has inspected the pens and stated in writing that they have been constructed in accordance with this approval.

**NRCB**

Natural Resources  
Conservation Board

Approval LA19002  
SW 18-013-24 W4M

4. The permit holder shall complete construction of the manure collection and storage portions of the south row of feedlot pens prior to November 21, 2021. Upon request, this deadline may be extended by the NRCB in writing.

Catch basin

5. The permit holder shall not allow manure or runoff water to enter the catch basin until the NRCB has inspected the catch basin and stated in writing it has been constructed in accordance with this approval.
6. The permit holder shall complete construction of the catch basin prior to November 21, 2021. Upon request, this deadline may be extended by the NRCB in writing.
7. Prior to the inspection cited in condition #5 above, the permit holder shall submit to the NRCB a completion report, signed by a qualified third party, certifying that the catch basin has been constructed in accordance with the recommendation made in the January 11, 2019 Woods report which is attached to Technical Document LA19002.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.
