

Total permitted animal capacity from all permits for this site:

1700 Beef feeder calves

In consideration of Decision Summary LA20007, Approval LA20007 is issued to:

Name: Teunis and Dirkje Liefting (the “co-permit holders”)
Address: Box 735, Picture Butte, Alberta T0K 1V0
Contact person: Teunis (Tony) Liefting

Permitted construction (based on the submitted site plan):

- 2 catch basins (CB 1 and 2): 40 m x 25 m x 4 m and 43 m x 30 m x 3 m
- Solid manure storage pad: 45 m x 5 m
- Two additional rows of calf hutches on the east side of the entrance way (This increases the dimensions of the east part by 35 m to a total of 100 m and is included in the ‘total dimensions’ listed below)

Already constructed facilities that are now permitted to be used to house livestock and store manure:

- One large pen with shelter (L-shape – along the fresh water reservoir): 22 m x 71 m + 24 m x 21 m)
- Manure storage areas to house calf hutches east and west: total dimensions 183 m + 195 m (west: 50 m x 100 m; east: 100 m x 183 m (this includes the two additional rows mentioned above))
- Extension of prong 1 of the ‘hog barn’: 28 m x 11 m
- Shelters along prong 1 and 2 of the hog barn: 31 m x 3 m (each)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed Application LA20007 together with the site plan, engineering reports and other documents attached, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions # 2, 4, 6, and 8.

Construction conditions

Catch basin 1

Construction completion deadline

1. The permit holder shall complete construction of the catch basin 1 prior to December 31, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

2. The permit holder shall not allow manure contaminated runoff to enter the catch basin 1 until it has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Catch basin 2

Construction completion deadline

3. The permit holder shall complete construction of the catch basin 2 prior to December 31, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

4. The permit holder shall not allow manure contaminated runoff to enter the catch basin 2 until it has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Solid manure storage pad

Construction completion deadline

5. The permit holder shall complete construction of the solid manure storage pad prior to December 31, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

6. The permit holder shall not allow manure to be placed onto the solid manure storage pad until it has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Two additional rows of calf hutches in the 'manure storage area east'

Construction completion deadline

7. The permit holder shall complete construction of the two additional rows of calf hutches in the 'manure storage area east' prior to December 31, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

8. The permit holder shall not allow manure or livestock in the two additional rows of calf hutches in the 'manure storage area east' until they have been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Operating conditions

4. The permit holder shall spread manure once year unless otherwise agreed upon with the NRCB in writing.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Mr. Liefing's deemed approval, including development permits # 91-46 and 98-01 are therefore cancelled, unless Approval LA20007 is held invalid following a review and decision by the NRCB's board members or by a court, in which case municipal development permits # 91-46 and 98-01 will remain in effect.

June 4, 2020

Carina Weisbach
Approval Officer

Approval LA20007 – Appendix

Deemed permitted facilities:

A 4 prong hog barn with a head structure, connecting the 4 sections (prongs) permitted under development permit 91-46 and 98-01:

- Head structure: 63 m x 10 m (partly decommissioned)
- Prong 1 (west): 36 m x 15 m
- Prong 2: 47 m x 14 m
- Prong 3: 46 m x 14 m (decommissioned)
- Prong 4 (east): 49 m x 11 m (decommissioned)

Earthen liquid manure storage: 50 m x 24 m (converted into a catch basin)

The existing facilities have been converted into feeder calf housing facilities.

Construction conditions brought forward from development permit # 91-46

- 1) The barn is to be located as per submitted sketch
- 2) The new barn is to replace the present outdoor corrals, and is not to be used for an expansion of increase to this operation of 150 sows farrow to finish.
- 3) The existing corrals are to be dismantled

Construction conditions brought forward from development permit 98-01

- 4) In lieu of the completed addition, 65' of the dry sow barn (west barn) is to be removed. This amounts to approximately 2,380 square feet, or the equivalent area of the addition.
- 5) Demolition is to be completed within 30 days form the effective date on the permit... weather permitting.
