

In consideration of Decision Summary LA20011, Authorization LA20011 is issued to:

Name: Gouw Quality Onions Ltd. (the "permit holder")
Address: 5801 54 Avenue, Taber AB T1G 1X4
Contact person: Casey Gouw

Permitted construction (based on the submitted site plan):

- Feedlot pens - 243.9 m x 71.6 m
- Manure storage pad - 104.9 m x 53.3 m
- Catch basin - 64.3 m x 53.3 m x 4.6 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application for Authorization LA20011 and Approval LA19011 together with the site plan, building plans, engineering reports, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #2, #4, and #7.

The permit holder is responsible for all costs associated with, recording and reporting requirements.

Construction conditions

Feedlot pens

1. The permit holder shall complete construction of the manure collection and storage portions of the feedlot pens prior to November 30, 2022. Upon request, this deadline may be extended by the NRCB in writing.
2. The permit holder shall not place livestock or manure in the feedlot pens until the NRCB has inspected the pens and stated in writing that they have been constructed in accordance with this authorization.

Manure storage pad

3. The permit holder shall complete construction of the manure collection and storage portions of the manure storage pad prior to November 30, 2022. Upon request, this deadline may be extended by the NRCB in writing.

4. The permit holder shall not place livestock or manure on the manure storage pad until the NRCB has inspected the pens and stated in writing that they have been constructed in accordance with this authorization.

Catch basin

5. The permit holder shall complete construction of the manure collection and storage portions of the catch basin prior to November 30, 2022. Upon request, this deadline may be extended by the NRCB in writing.
6. The permit holder shall immediately cease construction and contact the NRCB if the water table is encountered during construction of the catch basin.
7. The permit holder shall not allow manure contaminated runoff to enter the catch basin until the NRCB has inspected the catch basin and stated in writing that it has been constructed in accordance with this authorization.

This authorization becomes effective immediately in conjunction with previously issued Approval LA19011. The authorization conditions will remain in effect unless amended in writing by the NRCB.

July 20, 2020
