

Total permitted animal capacity from all permits for this site:

84,000 chicken broilers

In consideration of Decision Summary LA20021, Approval LA20021 is issued to:

Name: Prairie Dust Farms Ltd. (the “permit holder”)
Address: Box 4210, Taber AB T1G 2C7
Contact person: Keith Ypma

Permitted construction (based on the submitted site plan):

- Two broilers barns – 120 m x 18 m each

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application together with the building plans, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #3 and #6.

The permit holder is responsible for all costs associated with testing, recording and reporting requirements.

Construction conditions

Broiler Barn 1

1. The concrete used to construct the manure storage and collection system in the barn must have a minimum 28-day strength of 25 MPa. The permit holder shall provide documentation to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.
2. The permit holder shall complete construction of the manure collection and storage portions of the barn prior to December 31, 2022. Upon request, this deadline may be extended by the NRCB in writing.
3. The permit holder shall not place livestock or manure in the barn until the NRCB has inspected the barn and stated in writing that it has been constructed in accordance with this approval.

Broiler Barn 2

4. The concrete used to construct the manure storage and collection system in the barn must have a minimum 28-day strength of 25 MPa. The permit holder shall provide documentation to the NRCB to confirm the specifications of the concrete used in the construction. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.
5. The permit holder shall complete construction of the manure collection and storage portions of the barn prior to December 31, 2022. Upon request, this deadline may be extended by the NRCB in writing.
6. The permit holder shall not place livestock or manure in the barn until the NRCB has inspected the barn and stated in writing that it has been constructed in accordance with this approval.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.
