
In consideration of Decision Summary RA20028, Authorization RA20028 is issued to:

Name: Hutterian Brethren Church of Camrose (the “permit holder”)
Address: Box 1918 Camrose AB T4V 1X8
Contact person: Mike Wurz

Permitted construction (based on the submitted site plan):

- Earthen liquid manure storage or EMS (166.1 m x 45.7 m x 5.5 m deep)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in application RA20028 (as amended on August 26, 2020), together with the site plan, building plan and engineering report, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition four.

The permit holder is responsible for all costs associated with monitoring, sampling, testing, recording and reporting requirements.

EMS Construction conditions

1. Construction above water table
The permit holder shall immediately cease construction of the EMS and contact the NRCB if the water table is observed to be one metre or less from the bottom of the EMS at the time of construction.
2. Construction completion deadline
The permit holder shall complete the construction of the EMS prior to September 30, 2022. Upon written request, this deadline may be extended by the NRCB in writing.
3. Construction report requirement
The permit holder shall provide the NRCB with a written construction completion report for the EMS. The report must be stamped by a qualified professional, and certify that the manure storage portion of the new EMS:
 - has a concrete splash pad that is installed below the inlet
 - inlet is located in the lower quarter of the EMS
 - has a water stop collar installed around the inlet pipe as proposed
 - is constructed in the proposed location
 - dimensions including horizontal and vertical dimensions, elevations above and below grade, berm heights, and side slopes

This document must be provided to the NRCB prior to the inspection referenced in condition 4, or by a later date stated in writing by the NRCB.

4. Post construction inspection

The permit holder shall not place manure in the EMS until NRCB personnel have inspected it and stated in writing that it has been constructed in accordance with the terms and conditions of this authorization.

This authorization becomes effective immediately and needs to be read in conjunction with the deemed approval, including Camrose County issued development permit 99-084, and NRCB issued Approvals RA09027 and RA10002M, and Authorization RA15054, which all remain in effect. This authorization's conditions will remain in effect unless amended in writing by the NRCB.

September 4, 2020

(Original Signed)
Jeff Froese
Approval Officer
