

Regarding Approval RA20021
NE 9-26-9 W4M

Water Well Monitoring Requirements

The purpose of this statement is to outline the water well monitoring requirements in Approval RA20021. Operating Condition #10 of Approval RA20021 reads:

“The permit holder shall sample and test raw groundwater, according to water well monitoring requirements prescribed by the NRCB in writing. The NRCB may, based on the monitoring results and at its discretion, revise those requirements from time to time, in writing.”

Therefore; the water well monitoring requirements for this facility shall be as follows:

Monitoring Frequency

Annually, with results submitted to the NRCB by October 31 of each year

Water Well Test Parameters

Chlorides and nitrate-nitrogen

Water Wells to be used for Monitoring

Water wells located within 100 metres of the confined feeding operation

These monitoring requirements become effective on the date of this letter and supersede any previously issued monitoring requirements at this facility.
