Permitted construction (based on the submitted site plan):

- manure collection pit - (21 m x 3.6 m x 3 m deep)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application, together with the site plan, building plans and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #3.

Construction conditions

Manure collection pit

1. Construction completion deadlines
The permit holder shall complete construction of the manure collection pit prior to December 1, 2022. Upon request, this deadline may be extended by the NRCB in writing.
2. Concrete
The concrete used to construct the manure collection and storage liner of the manure collection pit must meet the specifications for category B (liquid manure shallow pits) in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written proof to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.
3. Post construction inspections (prior to populating facilities)
The permit holder shall not place manure in the manure collection pit until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this authorization.

This authorization becomes effective immediately and should be read in conjunction with municipal development permit #97-091. The authorization conditions will remain in effect unless amended in writing by the NRCB.
