

Regarding Registration RA05035A
SE 16-40-25 W4M

Leak Detection Monitoring Requirements

The purpose of this statement is to outline the groundwater monitoring requirements in Registration RA05035A. Ongoing Condition #7 of Registration RA05035A reads:

“The owner/operator shall conduct leak detection monitoring for the liquid manure storage facility as prescribed and authorized in writing, and as amended from time to time where appropriate, by the NRCB.”

Therefore; the water well monitoring requirements for this facility shall be as follows:

Monitoring Frequency

Every two years, with the next monitoring report due November 30, 2022

Monitoring Well Test Parameters

Groundwater samples from the monitoring wells are to be tested for the Indicator samples identified in the NRCB technical guideline *Leak Detection Groundwater Sampling* (Agdex 096-53)

Monitoring Wells to be used for Monitoring

MW-01, MW-02, MW-03

These monitoring requirements become effective on the date of this letter and supersede any previously issued monitoring requirements at this facility.

January 27, 2021
