

Total permitted animal capacity from all permits for this site:

200 Milking Cows (plus associated dries and replacements)

40 Feeder Hogs

1,500 Beef Finishers

1,500 Beef Feeders

20,000 Chicken Layers

10,000 Chicken Broilers

1,200 Ducks

500 Geese

500 Ewes with Lambs

In consideration of Decision Summary LA19020A and LA19020, Approval LA19020A is issued to:

Name: Hutterian Brethren Church of Sandhill (the "permit holder")
Address: Box 249 Beiseker Alberta T0M 0G0
Contact person: Mike C. Wurz

Permitted construction (based on the submitted site plan):

- Layer barn (revised location) - 100.6 m x 25 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed applications LA19020A and LA19020 together with the site plan, building plans, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition #3.

The permit holder is responsible for all costs associated with monitoring, sampling, testing, recording and reporting requirements.

Layer Barn construction conditions

1. The permit holder shall construct the concrete liner of the manure storage and collection systems in the layer barn to meet the specifications for category D (solid manure-dry) in Technical Guideline Agdex 096-93 "Non-Engineered Concrete Liners for Manure Collection and Storage Areas." The permit holder shall provide documentation that the concrete used for the manure collection and storage areas meets the required specifications. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.
2. The permit holder shall complete the construction of the barn prior to November 30, 2022. Upon written request, this deadline may be extended by the NRCB in writing.

3. The permit holder shall not place livestock or manure in the layer barn until the NRCB have inspected it and stated in writing that the barn has been constructed in accordance with the terms and conditions of this approval.

Operating conditions (carried forward from Approval LA19020)

4. Water Well Testing Reporting

Drinking water quality tests for chlorides and nitrates must be conducted annually on the water wells within 100 metres of the confined feeding operation with the results submitted annually to the NRCB by October 31, beginning in 2012, unless otherwise directed in writing by the NRCB.

This approval amendment becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Approval LA19020 is hereby cancelled and is no longer in effect, unless Approval LA19020A is held invalid, in which case the previous permits will remain in effect.

March 2, 2021
