Dear Karl:

Further to our telephone conversation this week, please accept this letter as a formal request to have you begin the process of providing us with a grandfather determination for our existing feedlot located on the [NE 32-21-26 W4].

Our current facility is a 6000 head capacity finishing feedlot and has been such since 1998. We are fully prepared to provide any and all present and historical information required for the determination. A personal on site inspection would be welcomed if required.

Assuming this request is appropriate, I will wait for your response on how to proceed.

Sincerely,

Ronnie Ostrom
