

Total permitted animal capacity from all permits for this site:

1,999 beef feeders

In consideration of Decision Summary LA21005, Approval LA21005 is issued to:

Name: Curtis Kreft, Ben and Carol Knelsen, and Carben Farms Ltd. (the “co-permit holders”)
Address: 2-93053 RR 21-0, Lethbridge AB T1J 5R1
Contact person: Curtis Kreft

Permitted construction (based on the submitted site plan):

- Six feedlot pens – 100 m x 150 m (total area)
- Catch basin – 21.3 m x 45.8 m x 3.5 deep

The co-permit holders shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The co-permit holders shall adhere to the descriptions contained in the filed application together with the site plan, building plans, operating plan, engineering reports, and other attached documents, unless otherwise noted in the following conditions.

The co-permit holders shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #2 and #4.

The co-permit holders are responsible for all costs associated with monitoring, sampling, testing, recording and reporting requirements.

Construction conditions

Feedlot Pens

1. The co-permit holders shall complete construction of the feedlot pens prior to November 30, 2024. Upon request, this deadline may be extended by the NRCB in writing.
2. The co-permit holders shall not allow livestock or manure in the feedlot pens until NRCB personnel have inspected the facilities and confirmed, in writing, that they have been constructed in accordance with the terms and conditions of this permit.

Catch basin

3. The co-permit holders shall complete construction of the manure collection and storage portions of the catch basin prior to November 30, 2024. Upon request, this deadline may be extended by the NRCB in writing.

4. The co-permit holders shall not allow manure contaminated runoff to enter the catch basin until the NRCB has inspected the catch basin and stated in writing that it has been constructed in accordance with this permit.

Operating conditions (carried forward from municipal permit 94-02)

5. Fly control program must be instituted at all times.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

The deemed permit, including municipal Development Permit 94-02, is hereby superseded and is no longer in effect, unless Approval LA21005 is held invalid, in which case the previous permit will remain in effect.

August 11, 2021

(Original Signed)

Joe Sonnenberg
Approval Officer

Approval LA21005 – Appendix

Existing permitted facilities

Deemed permit (including development permit #94-02)	Feedlot Pens with shelters – 140 m x 58 m + 18 m x 18 m Catch basin – 32 m x 11 m
