On January 14, 2021 application LA19036 was denied by an approval officer. On May 25, 2021 after a Board Review, the NRCB Board issued Board Decision 2021-03 / LA19036 directing Field Services to issue a decision once the applicant met the Board's conditions, in addition to other conditions be considered. This approval allows for the following:

Permitted Construction (already constructed):

- New covered pens with a roller compacted concrete liner – 82 m x 15 m
- Expanding and converting existing corrals into open pens with a roller compacted concrete liner – total dimensions 92 m x 37 m
- Converting two older hog barns for use as beef feeder calf facilities - 50 m x 12 m and 60 m x 12 m

Permitted construction (based on the submitted site plan):

- New run off control catch basin with a synthetic liner for the open feedlot pens - 36 m x 21 m x 1.8 m deep

Enclosed you will find a copy of the decision with respect to the application. In accordance with the *Agricultural Operation Practices Act (AOPA)*, copies of the decision are being provided to all directly affected parties and to all parties determined not directly affected that provided written input to the Natural Resources Conservation Board.

Yours truly,

(original signed)
