

---

In consideration of Decision Summary BA21018, Authorization BA21018 is issued to:

Name: Tuxedo Farms Ltd. (the “permit holder”)  
Address: Box 5549, Westlock AB T7P 2P5  
Contact person: Nelson Jespersen

**Permitted construction** (based on the submitted site plan):

- Calf pen area – 40 m x 9 m
- Calf nursery area – 15 m x 6 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application together with the site plan, building plans, and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #3 and 6.

The permit holder is responsible for all costs associated with sampling, testing, recording and reporting requirements.

**Construction conditions**

Calf pen area

1. The permit holder shall construct the concrete liner of the manure storage and collection systems in the calf pen area to meet the specifications for category D (solid manure-dry) in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide documentation that the concrete used for the manure collection and storage areas meets the required specifications. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.
2. The permit holder shall complete the construction of the calf pen area prior to November 30, 2022. Upon written request, this deadline may be extended by the NRCB in writing.
3. The permit holder shall not place livestock or manure in the calf pen area until the NRCB have inspected it and stated in writing that the calf pen area has been constructed in accordance with the terms and conditions of this authorization.

Calf nursery area

4. The permit holder shall construct the concrete liner of the manure storage and collection systems in the calf nursery area to meet the specifications for category D (solid manure-

dry) in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide documentation that the concrete used for the manure collection and storage areas meets the required specifications. This document must be provided to the NRCB prior to the inspection referenced in condition #6 below or by a later date stated by the NRCB.

5. The permit holder shall complete the construction of the calf nursery area prior to November 30, 2022. Upon written request, this deadline may be extended by the NRCB in writing.
6. The permit holder shall not place livestock or manure in the calf nursery area until the NRCB have inspected it and stated in writing that the calf nursery area has been constructed in accordance with the terms and conditions of this authorization.

This authorization becomes effective immediately and needs to be read in conjunction with previously issued Approval BA19009. The authorization conditions will remain in effect unless amended in writing by the NRCB.

October 20, 2021
