

In consideration of Decision Summary RA21017A, Authorization RA21017A is issued to:

Name: The Board of Governors of Lakeland College (the “permit holder”)
Address: 5707 College Drive Vermilion AB T9X 1K5
Contact person: Jeff Dustow and Dale Milne

Permitted construction (based on the submitted site plan):

- a dry cow shed (30.5 m x 9.2 m)
- a feed apron (30 m x 4.3 m)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application for Authorization RA21017 and RA21017A together with the site plan, building plans, engineering reports and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions # 2 and 5.

Construction conditions

Dry cow shed

1. The concrete used to construct the liner of the dry cow shed must meet the specifications for category D (solid manure – dry), in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written confirmation, from a qualified third party, confirming that the concrete used for the manure collection and storage areas meets the required specifications.
2. The permit holder shall not allow livestock or manure in the new dry cow shed, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
3. The permit holder shall complete construction of the manure collection and storage portions of the new dry cow shed prior to November 30, 2023. Upon request, this deadline may be extended by the NRCB in writing.

Feed apron

4. The concrete used to construct the liner of the feed apron must meet the specifications for category C (solid manure – wet), in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written confirmation, from a qualified third party, confirming that the concrete used for the manure collection and storage areas meets the required specifications.

5. The permit holder shall not allow livestock or manure on the feed apron, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
6. The permit holder shall complete construction of the manure collection and storage portions of the feed apron prior to November 30, 2023. Upon request, this deadline may be extended by the NRCB in writing.

This authorization becomes effective immediately and needs to be read in conjunction with previously issued Registration RA16070. The authorization conditions will remain in effect unless amended in writing by the NRCB.

Authorization RA21017 is hereby cancelled and is no longer in effect, unless Authorization RA21017A is held invalid, in which case the previous permit will remain in effect.

December 16, 2021
