

In consideration of Decision Summary BA22001, Authorization BA22001 is issued to:

Name: Malda Farms Ltd. (the “permit holder”)
Address: RR 3 Barrhead AB T7N 1N4
Contact person: Jim and Ruth Malda

Permitted construction (based on the submitted site plan):

- Pullet barn – 94.5 m x 21.3 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed application together with the site plan, building plans, manure management plan, and other attached documents including in previously issued Approval BA07004, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition 3.

Construction conditions

1. Construction completion deadline

The permit holder shall complete construction of the pullet barn prior to December 1, 2023. Upon request, this deadline may be extended by the NRCB in writing.

2. Concrete

The concrete used to construct the manure collection and storage liner of the pullet barn must meet the specifications for category D (solid manure - dry) in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written proof to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition #3, below, or by a later date stated by the NRCB.

3. Post construction inspections (prior to populating facilities)

The permit holders shall not place livestock or manure in the pullet barn until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this authorization.

Operating conditions

4. Livestock numbers

Unless otherwise directed by the NRCB in writing, the permit holder shall maintain and make available to the NRCB upon request a record of the number of livestock being housed on-site, to demonstrate that the manure or odour production does not exceed the permitted amount.

This authorization becomes effective immediately and needs to be read in conjunction with previously issued permit Approval BA07004. The authorization conditions will remain in effect unless amended in writing by the NRCB.

March 14, 2022
