

**Total permitted animal capacity from all permits for this site:**

33,200 chicken layers  
25,000 chicken pullets

---

In consideration of Decision Summary RA22001, Approval RA22001 is issued to:

Name: Byron and Donna Toews, operating as Albanna Farms Ltd. (the “co-permit holders”)  
Address: RR1 Swalwell AB T0M 1Y0  
Contact person: Byron Toews

**Permitted construction** (based on the submitted site plan):

- a two story layer barn (63.4 m x 16.5 m)
- a manure storage shed attached to the east end of the layer barn (21.3 x 9.1 m)

The co-permit holders shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The co-permit holders shall adhere to the descriptions contained in the filed application together with the site plan, building plans, operating plan, and other attached documents, unless otherwise noted in the following conditions.

The co-permit holders shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #2 and 5.

The co-permit holders is responsible for all costs associated with monitoring, sampling, testing, recording and reporting requirements.

**Construction conditions**

**Layer Barn**

1. The concrete used to construct the liner of the layer barn must meet the specifications for category D (solid manure – dry), in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The co-permit holder shall provide documentation to confirm the specifications of the concrete used for the manure collection and storage areas meets the required specification.
2. The permit holder shall not allow birds or place manure in the layer barn, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
3. The permit holder shall complete construction of the manure collection and storage portions of the layer barn prior to January 31, 2025. Upon request, this deadline may be extended by the NRCB in writing.

#### Manure Storage Shed

4. The concrete used to construct the liner of the manure storage shed must meet the specifications for category D (solid manure – dry), in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The co-permit holders shall provide documentation to confirm the specifications of the concrete used for the manure collection and storage areas meets the required specification.
5. The permit holder shall not place manure in the manure storage shed, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
6. The permit holder shall complete construction of the manure collection and storage portions of the manure storage shed prior to January 31, 2025. Upon request, this deadline may be extended by the NRCB in writing.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Albanna Farms’ deemed registration is hereby cancelled and is no longer in effect, unless Approval RA22001 is held invalid, in which case the previous permit will remain in effect.

April 29, 2022
