

Regarding Approval LA22023  
NW 8-24-18 W4M, SW 17-24-18 W4M, & SE 18-24-18 W4M

### **Water Well Monitoring Requirements**

The purpose of this statement is to outline the water well monitoring requirements in Approval LA22023. Water well monitoring condition of Approval LA22023 reads:

“Water quality tests shall be conducted annually on water wells within 100 m of the confined feeding operations’ manure collection areas and manure storage facilities (MCA/MFS). The annual water well test results shall be submitted to the NRCB no later than January 31<sup>st</sup> unless otherwise directed in writing by the NRCB.”

Appendix B, of Decision Summary LA22023 concluded that an exemption of the new poultry barn is warranted but that the existing water well monitoring condition will be carried forward from Approval LA10027.

Therefore, the water well monitoring requirements for this CFO shall be as follows:

#### **Monitoring Frequency**

Annually, with results submitted to the NRCB by January 31 of each year

#### **Water Well Test Parameters**

Chlorides and nitrate-nitrogen

#### **Water Wells to be used for Monitoring**

All wells within 100 m of an MCA/MFS (Wells 1, 2, 6, 7, 8 as labelled on page 4 of Technical Document LA22023)

This monitoring requirement become effective on the date of this letter.

Date: June 3, 2022
