

Total permitted animal capacity from all permits for this site:

100 milking cows (plus associated dries and replacements)

21,000 chicken layers

350 swine farrow to finish

200 ducks

200 geese

In consideration of Decision Summary LA22006, Approval LA22006 is issued to:

Name: Cameron Farms Colony Ltd. (the “permit holder”)
Address: Box 270, Turin AB T0K 2H0
Contact person: Titus Hofer

Permitted construction (based on the submitted site plan):

- Chicken layer barn – 103.6 m x 54.9 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed applications municipal development permit #50-91 and Approval LA22006 together with the site plan and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition #3.

The permit holder is responsible for all costs associated with monitoring, sampling, testing, recording and reporting requirements.

Construction conditions (layer barn)

1. Construction completion deadline

The permit holder shall complete construction of the new layer barn prior to November 30, 2024. Upon request, this deadline may be extended by the NRCB in writing.

2. Concrete

The concrete used to construct the manure collection and storage liner of the new layer barn must meet the specifications for category D (solid manure - dry) in Technical Guideline Agdex 096-93 “Non-Engineered Concrete Liners for Manure Collection and Storage Areas.” The permit holder shall provide written proof to the NRCB confirming the specifications of the concrete used. This document must be provided to the NRCB prior to the inspection referenced in condition #3 below or by a later date stated by the NRCB.

3. Post construction inspections (prior to populating facility)

The permit holder shall not place livestock or manure in the new layer barn until the NRCB has inspected the facility and stated in writing that it has been constructed in accordance with this approval.

Operating conditions

4. Liquid manure must be injected or incorporated in accordance with AOPA requirements.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

The deemed approval, including MD of Taber issued development permit #50-91 is hereby cancelled and is no longer in effect, unless Approval LA22006 is held invalid, in which case the previous permit will remain in effect.

July 6, 2022
