

**Total permitted animal capacity from all permits for this site:**  
56,000 beef finishers

---

In consideration of Decision Summary LA21060, Approval LA21060 is issued to:

Name: Chinook Feeders (2020) Ltd. (the “permit holder”)  
Address: Box 343, Nanton AB T0L 1R0  
Contact person: Rick and Jordan Sears

**Permitted construction** (based on the submitted site plan):

- Additional feedlot pens (480 m x 836 m) (combined total dimensions of approximately 1,430 m x 925 m)
- Series of 6 catch basins (130 m x 40 m x 2 m deep)
- Large catch basin (330 m x 140 m x 9.5 m deep)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed applications LA05006 and LA21060, together with the site plan, building plans, operating plan, engineering reports and other attached documents, unless otherwise noted in the following conditions.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspections in conditions #1, 4, and 7.

The permit holder is responsible for all costs associated with recording and reporting requirements.

**Construction conditions**

Feedlot pens

1. The permit holder shall not place livestock or manure in the feedlot pens until the facilities have been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
2. The permit holder shall complete construction of the new feedlot pens prior to December 30, 2025. Upon request, this deadline may be extended by the NRCB in writing.

Series of six catch basins

3. The permit holder shall provide the NRCB with written confirmation from a qualified third party that provides confirmation of the catch basins' dimensions, including elevations above and below grade, and side slopes.

4. The permit holder shall not allow manure impacted runoff to enter the catch basins until the facilities have been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
5. The permit holder shall complete construction of the 6 catch basins prior to December 30, 2025. Upon request, this deadline may be extended by the NRCB in writing.

Large catch basin

6. The permit holder shall provide the NRCB with written confirmation from a qualified third party that provides confirmation of the large catch basin dimensions, including elevations above and below grade, and side slopes.
7. The permit holder shall not allow manure impacted runoff to enter the large catch basin until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
8. The permit holder shall complete construction of the large catch basin prior to December 30, 2025. Upon request, this deadline may be extended by the NRCB in writing.

Decommissioning of three existing catch basins

9. The permit holder shall decommission the existing catch basins in accordance with the requirements for all risk levels in Technical Guideline Agdex 096-90, "Closure of Manure Storage Facilities and Manure Collection Areas." The permit holder must notify the NRCB, and fill out, and submit the "Manure Storage/Collection Area Closure Worksheet" to the NRCB once all work has been completed.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Approval LA05006 is hereby superseded, unless Approval LA21060 is held invalid, in which case the previous permit will remain in effect.

August 31, 2022

(Original signed)

Lynn Stone  
Approval Officer

**LA21060 – Appendix**

**Existing permitted facilities**

Facility	Dimensions (m)	From
Existing feedlot pens	925 m x 950 m (approximately)	Approval LA05006, (previously under deemed approval)
Three existing catch basins (to be decommissioned)		Approval LA05006, (previously under deemed approval)
