To whom it may concern;

Please find attached our Part 1 application to increase head numbers at our Feedlot site located at Section 28-29-25 W4M that we call K2.

We are requesting to move from 14,000 head beef feeder/finisher to 28,000 head of beef finishers. As part of our proprietary research that we continue to conduct our current constructed footprint of 4 pen rows would give sufficient space for the 28,000 head of beef finishers when on Rolled Compacted Concrete (RCC). However, we continue to do research on animal welfare and husbandry and would like the option to complete the other rows of pens before December 31, 2023 as part of Approval RA17076.

We look forward to working through our Part 1 and 2 applications to increase head numbers. Should you have any questions please direct to Kendra Donnelly at 403-512-9769 or kendra@korovafeeders.com.

Sincerely,

Doug Price
