Francisco, please consider this notice that I officially intend to dispute your intention to cancel Permit RA05042. Furthermore, I also dispute that the Carwell residence is within the 800m directly affected distance. Both that property and my own end at the high water mark of the lake between us and do not extend into the lake, leaving them over 800 meters apart. I invite you to explore the County of Wetaskiwin's interactive online map which shows where the property lines end, short of the body of the lake. Please confirm that this notice is sufficient to initiate the next steps in this process and the timelines attached. Respectfully, Darrin Rasmuson
