The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that Act.

The permit holder shall adhere to the descriptions, the site plan, building plans, engineering reports and other attached documents included with filed Application LA24001.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in condition #3.

The permit holder is responsible for all costs associated with reporting requirements (this includes post construction reports).

Construction conditions

Construction report

1. The permit holder shall submit a final construction report, prepared by a qualified third party, confirming the location and dimensions of the feedlot pens and the catch basin (including depth, and slope) and that they meet the applicable setbacks. This report must be submitted prior to the post construction inspection stated below.

Construction completion deadline

2. The permit holder shall complete construction of the manure collection and storage portions of the new feedlot pens and catch basin prior to December 31, 2025. Upon request, this deadline may be extended by the NRCB in writing.

Post construction inspection

3. The permit holder shall not place livestock or manure (manure contaminated runoff) in the new feedlot pens or catch basin until the NRCB has inspected the facilities and stated in writing that the facilities have been constructed in accordance with this approval.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.
