RE: Compliance Directive CD 23-05 – 2nd Extension Letter

On June 4, 2024, NRCB Inspector David Smejkal issued an extension letter, in response to Compliance Directive CD 23-05, granting an extension to July 31, 2024, for Conditions 1 and 2. In his letter, Inspector Smejkal advised that if progress was being made by the deadline (e.g., a deemed complete application), another extension letter may be issued at that time.

On July 29, 2024, I received email correspondence from NRCB Approval Officer, Sarah Neff, who advised a Part Two application has been received by the NRCB and is technically complete. However, due to a request for grandfathering more time is required to complete preliminary work before issuing an authorization or registration.

Therefore, I am granting an extension until **October 15, 2024**. This deadline will be flexible to allow sufficient time for the NRCB to make a possible grandfathering determination and issue the appropriate permit.

In the interim, Lone Pine Jerseys Ltd. shall mitigate any possible risks to the environment and potential nuisances to any affected neighbours.

Sincerely,
