

Total permitted animal capacity from all permits for this site:
4,950 beef finishers

In consideration of Decision Summary LA24029, Approval LA24029 is issued to:

Name: Delta Cattle Ltd. (the "permit holder")
Address: Box 130, Iron Springs AB T0K 1G0
Contact person: Philipp Lammerding

Permitted construction (based on the submitted site plan):

- No construction

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that Act.

The permit holder shall adhere to the descriptions, the site plan, building plans, operating plan, manure management plan, engineering reports and other attached documents included with filed Applications LA24029 and LA19031.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Authorization LA19031 and the deemed permit (including Development Permit 91-15) are hereby superseded, and their content consolidated into this Approval LA24029, unless Approval LA24029 is held invalid following a review and decision by the NRCB's Board members or by a court, in which case Authorization LA19031 and the deemed permit (including Development Permit 91-15) will remain in effect.

January 30, 2025

(Original signed)
Kelsey Peddle
Approval Officer

Approval LA24029 – Appendix

Existing permitted facilities

Facility	Dimensions (m)	From Permit
20 row	360 m x 45 m	Deemed permit
30 row	320 m x 64 m	Deemed permit
Catch Basin #2 (Catch basin #3)	65 m x 9 m x 1.5 m deep	Deemed permit
40 row (Feedlot pens)	275 m x 60 m	Authorization LA19031
50 row (Feedlot pens)	275 m x 65 m	Authorization LA19031
Catch Basin #1 (Catch basin #2 expansion)	62 m x 50 m x 5 m deep (total dimensions)	Authorization LA19031

Construction conditions (brought forward from Authorization LA19031)

Construction conditions (Feedlot pens)

1. The permit holder shall complete construction of the manure collection and storage portions of the proposed feedlot pens prior to November 30, 2022. Upon request, this deadline may be extended by the NRCB in writing.
2. The permit holder shall not place livestock or manure in the proposed feedlot pens until conditions #3, #4, #5, and #6 have been met, and the feedlot pens have been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Construction conditions (Expanded catch basin #2)

3. The permit holder shall complete construction of the manure collection and storage portions of the catch basin prior to November 30, 2022. Upon request, this deadline may be extended by the NRCB in writing.
4. The permit holder shall provide written documentation, prepared by a “professional engineer,” as defined in the *Standards and Administration Regulation*, certifying that the catch basin’s compacted soil liner is no less than 1.0 m thick, and confirming that the completed hydraulic conductivity of the liner is less than 5×10^{-7} cm/sec.
5. The permit holder shall immediately cease construction of the catch basin and contact the NRCB if the water table is observed to be one metre or less from the bottom of the catch basin liner.
6. The permit holder shall not allow runoff to enter the catch basin until the facility has been inspected by NRCB personnel and determined by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Facility decommissioning (100 row pens)

7. The permit holder shall decommission the CFO portion of the 100 row of pens. This area shall be decommissioned in accordance with Agdex 096-90: *Closure of Manure Storage Facilities and Manure Collection Areas*. The completion of this decommissioning must be confirmed by the NRCB in writing, within 1 year of completion of the proposed feedlot pens.
