

Total permitted animal capacity from all permits for this site:

650 goat nannies/billies

1,500 goat feeders

In consideration of Decision Summary LA24022, Registration LA24022 is issued to:

Name: Henk Beekman operating as Hill Billy Farms (the “permit holder”)
Address: Box 3766, Stirling AB T0K 2E0
Contact person: Henk Beekman

Permitted construction (based on the submitted site plan):

- catch basin – 20 m x 48 m x 3 m depth
- new pens – 61 m x 31 m

Already constructed facilities (based on the submitted site plan):

- row 1 with shelters – 71 m x 20 m
- row 2 with shelters – 71 m x 26 m
- row 3 with shelters – 80 m x 31 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that Act.

The permit holder shall adhere to the descriptions, the site plan, building plans, engineering reports and other attached documents included with filed Application LA24022.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions #3 and 6.

The permit holder is responsible for all costs associated with recording and reporting requirements (this includes post construction reports).

Construction conditions

Catch basin

1. The permit holder shall complete construction of the manure collection and storage portions of the catch basin prior to October 31, 2027. Upon request, this deadline may be extended by the NRCB in writing.
2. The permit holder shall submit to the NRCB a final construction report, prepared by a qualified third party, confirming the location and dimensions of the catch basin (including depth and slope). This report must be submitted prior to the post construction inspection cited in condition #3.

3. The permit holder shall not allow manure impacted run-off to enter the catch basin until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

New pens

4. The permit holder shall complete construction of the manure collection and storage portions of the new pens prior to October 31, 2027. Upon request, this deadline may be extended by the NRCB in writing.
5. The permit holder shall submit to the NRCB a final construction report, prepared by a qualified third party, confirming the location and dimensions of the new pens. This report must be submitted prior to the post construction inspection cited in condition #6.
6. The permit holder shall not allow manure or livestock to enter the new pens until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.
7. The permit holder shall not place manure or allow livestock to enter the new pens until conditions #1-3 have been met.

This registration becomes effective immediately. The registration conditions will remain in effect unless amended in writing by the NRCB.
