

Total permitted animal capacity from all permits for this site:

24,000 Chicken breeders,
12,000 Chicken pullets

In consideration of Decision Summary BA11012A, Approval BA11012A is issued to:

Name: Rietveld Poultry Farms Ltd. (the "permit holder")
Address: RR4 Toefield AB T0B 4J0
Contact person: Ashley Rietveld

Permitted facilities (already constructed):

- Broiler Breeder Barn 1 – (64 m x 12.8 m each) (already constructed)
- Broiler Breeder Barn 2 – (64 m x 12.8 m each) (already constructed)
- Broiler Breeder Barn 3 – (64 m x 12.8 m each) (already constructed)
- Broiler Breeder Barn 4 – (64 m x 12.8 m each) (already constructed)

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that act.

The permit holder shall adhere to the descriptions contained in the filed applications Approval BA11012 and BA11012A, together with the site plan, building plans, operating plan and other attached documents, unless otherwise noted in the following conditions.

The amended approval is effective immediately. The permit conditions will remain in effect unless amended by the NRCB.

Approval BA11012 is hereby cancelled and is no longer in effect, unless Approval BA11012A is held invalid, in which case the previous permits will remain in effect.

April 30, 2019

(Original signed)

Nathan Shirley
Approval Officer

Approval BA11012A - Appendix

Conditions carried forward from Approval BA11012 (already completed)

1. Completion Reports

- a. A completion report confirming the poultry layer barn #1 floor and construction procedures, prepared by a qualified third party, must be provided to the NRCB prior to manure or animals entering the barn. The completion report must include:
 - Verification that the barn is located according to the site plan provided. -
 - Verification of the barn size, including depths below and above grade. -
 - Verification of the type, thickness and compressive strength of the concrete and the size, spacing and pattern of rebar used to construct the barn floor.
- b. A completion report confirming the poultry layer barn #2 floor and construction procedures, prepared by a qualified third party, must be provided to the NRCB prior to manure or animals entering the barn. The completion report must include:
 - Verification that the barn is located according to the site plan provided. -
 - Verification of the barn size, including depths below and above grade. -
 - Verification of the type, thickness and compressive strength of the concrete and the size, spacing and pattern of rebar used to construct the barn floor.

2. Construction Completion

- a. Construction of the manure collection and storage portions of new poultry layer barn #1 must be completed prior to December 15, 2015 unless otherwise agreed upon in writing by the NRCB.
- b. Construction of the manure collection and storage portions of new poultry layer barn #2 must be completed prior to December 15, 2015 unless otherwise agreed upon in writing by the NRCB.

3. Inspections

- a. The manure storage portion of the poultry layer barns and the solid manure storage must be inspected by NRCB personnel prior to animals or manure being placed in the new barns or manure being placed in the new solid manure storage.

Existing permitted facilities:

Pullet barn – 162 m x 12 m
Pullet barn – 56 m x 12 m
Cockerel barn – 12 m x 12 m
Solid manure storage pad – 9 m x 55 m
